Re: HD-7500H 24" Horizontal Punch Introduction

Introducing the new and improved HD-7500H (horizontal) paper punch. Our HD-7500 (vertical) paper punch has evolved into a more versatile machine renamed the HD-7500H. Feeding and punching large documents is much easier when done horizontally. (The HD-7500 vertical has been discontinued and replaced with the HD-7500H)

Summary:

The new HD-7500H now has indicator marks for the most common sheet sizes.

Large chip drawer for paper waste.

Built in die rack.

Micro paper stop adjuster.

Angled platform for better viewing & sheet feeding.

Pull out extension table for large documents.

 &  Approved
